

Tabletop Design series 1-button remote control for Yokis UP Zigbee system, anthracite colour.

4820394

Product Specifications:

- Power supply: CR2032 lithium battery
- Battery duration: > 7 years
- Available channels: 1
- Number of receivers/channel: 8 in direct mode; unlimited in centralisation/scenario mode
- Range: 250m in free field of view and without obstacles. Range is reduced by metal items, walls or partitions.
- Radio protocol: Zigbee
- Frequency: 2.4 GHz
- Bidirectional transmission with notification LED on transmitter.
- Operating temperature: - 10°C to +50°C
- Relative humidity: maximum 80%
- Dimensions (L x H x D): 71,5 x 36 x 11,6 mm

Description

The TLC1-UP tabletop remote control is a universal 1-channel Zigbee radio transmitter capable of controlling all types of Yokis radio receivers (relays, dimmers, shutter modules) and third-party lighting devices based on the Zigbee 3.0 protocol.

With this remote control, it is possible to manage not only direct commands but also centralised commands and scenario activations. Thanks to the Zigbee radio protocol, commands can also be transmitted to modules that are not directly reachable by the transmitter, utilising the command repetition by the present actuator modules, and transmitting commands to groups of different types of modules (relays, dimmers, shutter actuators, etc.).

The transmitter includes a built-in temperature sensor, which can be used for activating commands related to temperature regulation, through multi-condition scenarios. It is easy to configure: both by the installer, via the device button or the UP2Pro App, and by the user, through the YnO UP App.

Transmitters can be duplicated by copying the settings from the first to the subsequent ones, without needing to intervene on the receiver modules. The remote control features a design aesthetic and high-quality materials: soft-surface buttons and a body made of bumper material. The transmitter is powered by a standard CR2032 battery (average battery life of over 5 years).

Accessories:

SUPTLC1-2-4-8TP (code 5454080) - wall mount
