Description

The proximity key reader module with Alpha design style for access control is used in the Easy Door Control, Transit+ and Ipassan systems. It allows a gate to be opened using Mifare Plus or Mifare tags. The device is equipped with 3 LEDs, the first is blue and indicates “Unit working”, the second is green and indicates “Access Allowed”, while the red LED indicates “Access Not Allowed”. The Bluetooth interface can only be used with the Ipassan system. 2-wire connection. Black colour.
