

Power supply unit with dual note generator for intercom systems for 4+n system

786/15

Product specification:

- Power supply 230Vac 50/60Hz
- Transformer power: 28 VA
- Relay contact range: 12Vac 2A
- Dimensions: (L x H x D) 108 x 61 x 90 mm (6 DIN modules)

Description

Power supply unit for 4+n audio systems with both traditional and electronic call function. The power supply unit handles 2 inputs or one input and intercom service in automatic switching. It is equipped with protection in case of short circuit, 2 differentiated and enhanced call generators to call 4 electronic door phones in parallel without adding any additional device and 3 switches to allow switching between services and ensure conversation privacy.
